www.factorydirectmontreal.ca

OUR STORY

The background of the page features a large, light-brown wooden door with a vertical grain pattern on the right side. To the left of the door is a dark brown wooden planter box filled with various flowers, including purple and white blossoms. The text is overlaid on the left side of the image, set against a dark, textured background.

For over 30 years, We have been committed to producing high quality exterior door and glass products. Founded in Vancouver, British Columbia, we operate manufacturing facilities in 4 countries along with distribution locations across North America. Managing one of the largest wood door manufacturing facilities in Western Canada, our team creates beautiful doors to meet your specific requirements.

Our Fiberglass Door Brochure represents the full breadth of our partnership with Plastpro. We chose Plastpro because of their diverse product offering and commitment to producing high-quality fiberglass doors. Their product line has something for every architectural space and style.

At Factory Direct, Handcrafted Construction meets Modern Design.

PLASTPRO - HYDROSHIELD

HydroShield™
technology

FIBERGLASS DOORS

Our fiberglass entry doors with exclusive Hydroshield Technology™ feature fiberglass reinforced door skins, full-length composite stiles, and composite top & bottom rails to prevent water infiltration on all six sides.

FULL LENGTH COMPOSITE TOP AND BOTTOM RAILS
Additional non-porous protection keeps water from seeping into the door and helps prevent the build up of mold or mildew.

FIBERGLASS REINFORCED SKIN

Fiberglass is unmarred by the wear and tear of everyday use and is unaffected by moisture and humidity. Our doors will not rot, splinter or warp like wood, and won't dent or delaminate like steel.

FULL LENGTH COMPOSITE STILES

All Plastpro fiberglass entry doors feature full length composite stiles to prevent water infiltration into the door and ensures our door will never warp, rot, or rust.

HydroShield™
technology

HYDROSHIELD ENTRY SYSTEM FEATURES & BENEFITS

MOISTURE RESISTANT

SOLUTION SERIES

At the Intersection of Form & Function

Thoughtful, clean lines, simple design, and peace of mind. These guiding principles inspired us to create the Solution Series. The Solution Series is perfect for any door where you want the glass and the door to be the star, without the frame ruining your inspiration.

The Solution Series design eliminates any screw holes, so you don't have to worry about unsightly gaps or unfinished screw plugs. Our patented technology uses a compression seal and interlocking joints to adhere to your door, creating a powerful bond. The frame is built to resist warping and melting in high heat areas so it can be used with any color finish. The textured frame comes in white or tan to be painted or stained.

3'0" x 6'8" DRS3F with Royston Glass and 1'2" x 6'8" SLS00 with Clear Low-E Glass

Dentil Shelves are made of lightweight High Density Polyurethane (HDP). It is lightweight which makes it easy to install onto a door. It is weather-resistant and will not warp, rot or crack. Its design complements the Plastpro door grain patterns. Available in Woodgrain, Smooth, or Fir Grain finishes.

THE HIGH DENSITY POLYURETHANE (HDP) PROVIDES MANY BENEFITS SUCH AS:

EASY INSTALLATION using common wood working tools and equipment

WILL NOT ROT or absorb moisture, and resists the growth of fungus and mildew

CLOSED CELLULAR STRUCTURE prevents paint from peeling from the surface

WILL NOT WARP OR CRACK when properly installed, or be affected by UV rays when properly coated
